50-ft. High Resolution SVGA/VGA Monitor Easy Pull Extension Cable with RGB coax (HD15 M/F)

MODEL NUMBER: P501-050

Description

Tripp Lite's 50 ft. XVGA/SVGA/VGA Easy Pull Monitor Extension Cable with Connectors makes running long length video cables a snap. The pull-apart design allows the cable to be run through conduit or other tight areas that a HD15 connector wouldn't fit through. Diameter of the circular DIN end is only 7/8". Circular Easy Pull connector is threaded to ensure maximum security once the cable is re-attached. The mini-coax (RGB) and paired video wire construction delivers superior signal quality. Double shielding (foil and braid) provides maximum EMI/RFI protection. Both the high density DB15 male and high density DB15 female connectors are molded and have integral strain relief to ensure they last a long time.
